Affordable Pricing

Multi- tiered pricing makes MS*Health/CMHC affordable for most organizations. Visit our web site at www.mshealth.com or call us at 1-800-544-2642 for complete pricing details.

Company History

In 1984, a hospital approached a team of independent application developers to create a system that would provide them with the data they needed to maintain their behavioral healthcare client data. Over the years, billing, appointment management, additional clinical features, and regional reporting were added. The finished product became known as MS*Health/CMHC. Although the original product centered on Community Mental Health Centers as the business model for application development, Residential, Inpatient, Developmentally Disabled, and many other social service providers realized their system automation goals using MS*Health/CMHC.

Client Data & Scheduling

MS*Health/CMHC provides everything your organization needs to effectively bill, track, and administer behavioral healthcare and social services.

Accounting & Clinical Data

Finally, proven accounts receivable features for non-profits and clinical data in one application that is easy to use!

Reporting

Evidence of any application's value is the breadth and scope of the reporting included and the ability to create new reports based on any data maintained by the application... MS*Health/CMHC does this and more.

Client Data

Regardless of the type of services your organization provides, MS*Health/CMHC is flexible enough to capture virtually any client data. In addition to hundreds of client data elements, MS*Health/CMHC even manages data created by other applications! MS*Health/CMHC provides a complete electronic client record.

Scheduling

The MS*Health/CMHC Appointment Scheduler captures client, staff, and all organization appointments. Kept appointments are available for conversion to service history and billing. The MS*Health/CMHC Appointment Scheduler interfaces with your Palm PDA making it easy to take your caseload and appointments with you!

Accounting Features

Since 1985, social service organizations have experienced improved cash flow with MS*Health/CMHC. Client billing, third party billing, and electronic claims submission capabilities provide the basis for an efficient and comprehensive accounts receivable system. In addition to integrated accounts receivable, MS*Health/CMHC can be tailored to post journal entries to most accounting systems.

Clinical Features

Clinicians find MS*Health/CMHC easily automates tedious and redundant clinical documentation. Automated Treatment Planning, progress notes, review reminders, and quick and easy access to information are just a few of the clinical features MS*Health/CMHC offers.

MS*Health/CMHC's more than 140 standard reports can be easily modified to suit your specific needs. Create and fill out forms, include additional data, and you can create an endless number new of reports too. Reports can be output to any printed media, screen, fax, e-mail, word processors, spreadsheets, and other formats. Virtually all reports can be selected by client activity level, program participation, payor, client name, number, etc. In addition most reports can be sorted in any order such as client name, program, date, etc.
